## SYSTIMAX 360™ Splice Tray Kit

The SYSTIMAX 360™ LP-STACK-SPT stackable splice tray is 14 inch wide x ½ inch high x 6 ½ inch deep (356mm x 13mm x 165mm) and can store 48 single fusion splice sleeves. The tray is compatible with Fujikura FP-03 series, Furukawa S921 and S922 or Uniprise SFE (9701008/00) single fusion splices only.

The tray features numerous fiber entry and exit ports and offers multiple buffer tube restraining points for maximum flexibility of installation. The clear plastic top cover may be snapped on to protect the routed fiber and splices while providing optimum visibility for inspection.

Multiple trays may be stacked and snapped together using provided plastic hardware, or fastened together with customer provided hardware using holes provided on base of tray.

This product is intended for indoor use or can be used outdoors in a suitable protective enclosure.
