

Working together, we succeed as a team.

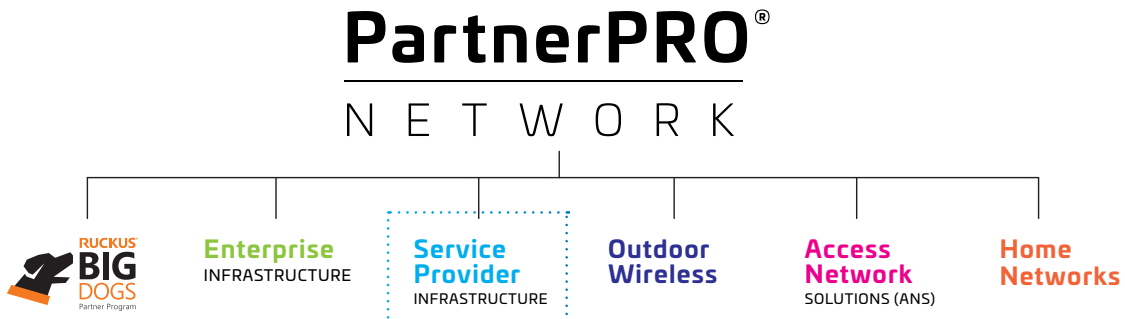

In the highly competitive broadband services market, Service Providers are facing unprecedented demand to deploy and evolve networks faster, in more diverse locations and with more capacity than at any point in history. In addition, they are constantly seeking new ways to keep up with changing market requirements & new competitor threats—ultimately, this is redefining service providers network priorities and driving them to choose solutions that optimize deployment speed and costs.

At CommScope, we believe that leveraging CommScope’s global knowledge and experience, combined with our partners local expertise, is the best way to help our joint customers deploy with speed & agility.

A powerful alliance designed to enable new and existing partners to better support their customers & maximize growth potential within the market.

The PartnerPRO Network

The Service Provider Infrastructure Partner Program is part of CommScope’s larger PartnerPRO Network, a global community recognized for its members’ collaboration, cohesion and collective success.

Program Partner Types

The program offers various types of partnerships, each representing a different kind of relationship with CommScope:

Distributors	Organizations focused on the complex logistics of delivering product to the customer environment. All Distributors offer high-quality logistics services, some offer value-add services and are recognized by our Badge Recognition program.
Elite Distributors	Recognition reflecting our joint commitment to creating value together, as a team, in support of our shared values, goals and customer commitments.
Solution Providers	Solution experts focused on specific products or industries.
Installers	Local & national experts trained to deploy field solutions in the customer environment.
Network Design & Planners	Experts who are well versed in designing the right solutions into the complex customer environment.
